Dear Professor Wandel,  
 This is my dream, Thanks you for this great trust.  
 I will do everything to prove myself and to meet your expectations.

Hi Ali  
 Take Step 3 on the earliest date - 1/23-24 will have to do .  
 There is a high likelihood that you might start as soon as we learn that you passed Step 3 - not 7/1/2018.  
 Happy New Year for you and your family

Dear Dr.Wandel,

Due to technical problem on my first day of USMLE step 3 exam, prometric center have to reschedule me and other candidates for other dates.

I tried to get the first date to comply with the department expectaions but no exams will be administered from January 1-15. Please see the link below.

<http://fsmb.org/licensure/usmle-step-3> < URLSTART <http://fsmb.org/licensure/usmle-step-3/> >

I have been rescheduled by the center for January, 23 and 24th as the earliest possible day. I am still trying to take this exam earlier even if I have to take in another state.

I hope this unexpected delay of 20 days would not interfere with my chances.

I am also submitting my rank list and I hope that I will match in your outstanding program.

Thanks and have happy New Year.

Amro
